Available from July 2026 • Paris / Île-de-France

PROFILE

Software engineer with 5 years of experience in frontend and mobile development (React, React Native, Node.js, TypeScript), including a Frontend Tech Lead role on high-traffic fintech applications. Currently pursuing an M.Sc. in Artificial Intelligence at ECE Paris, combining strong product and engineering expertise with skills in Machine Learning, NLP and generative AI (LLMs, RAG, agentic systems) to design and deliver scalable, maintainable AI systems end to end.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer / Frontend Tech Lead • Cube Holdings Ltd, Beirut, Lebanon *Sep 2024 – Feb 2026*

- Led the frontend team: recruitment, mentoring, code reviews, and defining engineering standards and best practices.
- Managed Agile / Scrum processes: backlog grooming, sprint planning, demos and retrospectives.
- Developed high-performance fintech applications, including a digital wallet app (React Native / Expo, TypeScript) with secure authentication (access / refresh tokens) and API integrations.
- Designed and built administration dashboards and financial reconciliation systems (React / Next.js) supporting the digital wallet platform.
- Improved product quality through automated testing (Jest, React Testing Library, Playwright), performance optimisation and automated deployments (EAS mobile and web).
- Developed and integrated a RAG chatbot (IntelliConvo) for the company: full pipeline (embeddings, Pinecone, OpenAI), deployed on Next.js / PostgreSQL via Vercel and Railway.

Senior Frontend Engineer • Aljazira Capital, Riyadh, Saudi Arabia *Jul 2022 – Jul 2024*

- Contributed to the development of a stock trading platform (React Native + React.js), one of the most technically demanding projects of my career.
- Translated Figma wireframes into responsive, production-ready interfaces: trading screens, portfolio views and transaction flows.
- Implemented features handling live market price streaming and real-time high-frequency portfolio updates.
- Optimised performance through profiling, rendering and efficient state management to support high-frequency updates.
- Integrated REST APIs with TypeScript and collaborated in Agile (Scrum) with designers, backend engineers, BAs and QA.

Software Engineer • CME, Beirut, Lebanon *Sep 2021 – Jul 2022*

- Delivered multiple client-facing mobile and web applications across different industries.
- Developed and maintained React Native applications for leading restaurant chains in Lebanon, implementing new features and resolving production bugs.
- Built a React.js web platform for Saudi Arabia's Vision 2030 initiative within a cross-functional team, creating reusable components and integrating REST APIs.
- Collaborated in Agile (Scrum) with designers, backend engineers, BAs and QA.

Full Stack Developer • Tac-Techs, Kuwait (remote) *Jan 2020 – Sep 2021*

- Developed cross-platform mobile applications with Flutter and backend systems with Laravel, delivering complete full-stack solutions.
- Designed and built REST APIs with Node.js and Laravel, integrated across multiple mobile and web applications.
- Integrated diverse external APIs, enabling seamless data exchange and system interoperability.
- Set up and managed CI/CD pipelines with GitHub Actions, deploying to App Store / Google Play and hosting in production.

Android Developer (Internship) • Monty Mobile, Beirut, Lebanon *Apr 2016 – May 2016*

- Developed high-performance, reusable native Android applications with Kotlin from wireframes and mockups.
- Identified and resolved performance bottlenecks and bugs.
- Collaborated with teams to define and implement new features.
- Integrated backend services and APIs, ensuring smooth data exchange and strong application performance.

EDUCATION

M.Sc. in Artificial Intelligence (Master 2, Bac+5) ECE Paris *March 2026 – present*

Machine Learning, Deep Learning (ANN, CNN), NLP & embeddings, Computer Vision, Data Science, Generative AI (LLMs, RAG, prompt engineering).

Bachelor's Degree in Computer Science (Bac+3 equivalent) American University of Science & Technology, Beirut
2016 – 2020

Graduated with honours.

TECHNICAL SKILLS

AI / Data : Machine Learning, Deep Learning, NLP, LLMs, RAG, agentic systems, prompt engineering

Python : Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Hugging Face, LangChain

Languages : JavaScript, TypeScript, Python, Kotlin

Frontend / Mobile : React.js, Next.js, React Native (Expo, CLI), Flutter

Backend / API : Node.js, FastAPI, Laravel, REST APIs, model deployment

Databases : PostgreSQL, MongoDB, SQL, Pinecone (vector)

Tools & Methodology : Git, GitFlow, CI / CD, Agile / Scrum

AI APIs & Services : OpenAI API, Claude API, Pinecone, MCP (basics)

MLOps : Docker, model deployment, ML API (FastAPI)

STRENGTHS & LANGUAGES

Strengths : Technical Leadership • Software Architecture • Problem Solving • Communication • Team Collaboration • AI Curiosity

Languages : Arabic (native, C2) • French (upper intermediate, B2) • English (fluent, C1)
