

ROY EL HAYEK

MSc Artificial Intelligence Student (M2) | Seeking 4 to 6 Month AI Internship

Boulogne-Billancourt (92) • 07 59 45 78 24 • roy.elhayek@edu.ece.fr
[linkedin.com/in/roy-el-hayek-74979b152](https://www.linkedin.com/in/roy-el-hayek-74979b152) • github.com/royhayek
Available from July 2026 • Internship agreement provided by ECE Paris

PROFILE

MSc Artificial Intelligence student at ECE Paris, with 5 years of experience in software engineering (React, React Native), including a role as Frontend Tech Lead. I am transitioning toward designing and deploying AI solutions, with an end-to-end approach from data to production. I am seeking a 4 to 6 month internship in Artificial Intelligence in Paris starting July 2026.

PROFESSIONAL EXPERIENCE

- Senior Frontend Engineer / Frontend Tech Lead • Cube Holdings Ltd, Dbayeh, Lebanon****Sep 2024 – Feb 2026**
 - Led the frontend team: hiring, mentoring, code reviews, and engineering standards
 - Managed Agile/Scrum processes: backlog, sprints, demos, retrospectives
 - Developed a digital wallet mobile application (React Native): secure authentication, API integrations
 - Designed admin dashboards and financial reconciliation systems (React / Next.js)
 - Built and integrated a RAG-based chatbot (IntelliConvo), with LLM cost optimization (monitoring and reducing inference costs)
- Senior Frontend Engineer • Aljazira Capital, Riyadh, Saudi Arabia****Jul 2022 - Jul 2024**
 - Developed a stock trading platform (React Native + React.js) with real-time market data streaming
 - Translated Figma wireframes into production-ready interfaces: trading screens, portfolios, transaction flows
 - Improved performance (profiling, rendering optimization, state management)
 - Collaborated in Agile environment with design, backend, and QA teams
- Software Engineer • CME, Beirut, Lebanon****Sep 2021 - Jul 2022**
 - Developed React Native applications for well-known restaurant chains in Lebanon (features & production bug fixes)
 - Contributed to a React.js platform aligned with Saudi Vision 2030
 - Worked in Agile teams with designers, backend developers, and QA
- Full Stack Developer • Tac-Techs, Kuwait (remote)****Jan 2020 - Sep 2021**
 - Built cross-platform mobile apps (Flutter) and Laravel backend systems
 - Designed REST APIs (Node.js / Laravel)
 - Managed deployments to App Store / Google Play and production hosting

EDUCATION

- MSc Artificial Intelligence - M2 (Bac+5) • ECE Paris, France****Mar 2026 - Present**
Machine Learning, Deep Learning (ANN, CNN), NLP & embeddings, Computer Vision, Data Science, Generative AI (LLMs, RAG, prompt engineering).
- B.A. Computer Science • American University of Science & Technology, Beirut, Lebanon****Oct 2016 - Jun 2020**
Graduated with honors.

AI PROJECTS

- IntelliConvo:** RAG-based chatbot pipeline: scraping, embeddings, vector search (Pinecone), OpenAI orchestration, prompt engineering, guardrails. Integrated into Next.js / Node.js app with PostgreSQL
- Treasure Hunter (Académique):** Reinforcement Learning agent (Policy Gradient, REINFORCE) trained on a custom 2D game to maximize cumulative reward. Implemented in Python / PyTorch with state, action, and episode modeling
- MedicAid (Académique):** Explainable AutoML platform powered by Claude API: EDA, preprocessing, model selection and training with explainability for each decision. Tech stack: Next.js, FastAPI, Scikit-learn, SHAP.

TECHNICAL SKILLS

AI / Data: Machine Learning, Deep Learning, NLP, LLMs, RAG, agent systems, prompt engineering
Python: Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Hugging Face, LangChain
Languages: JavaScript, TypeScript, Python, Kotlin
Frontend / Mobile: React.js, Next.js, React Native (Expo, CLI), Flutter
Backend / API: Node.js, FastAPI, Laravel, REST APIs, model deployment
Databases: PostgreSQL, MongoDB, SQL, Pinecone (vector database)
Tools & Methodologies: Git, GitFlow, CI / CD, Agile / Scrum
AI APIs & Services: OpenAI API, Claude API, Pinecone, MCP (basic knowledge)
MLOps: Docker, model deployment, ML APIs (FastAPI)

STRENGTHS & LANGUAGES

Strengths: Technical leadership • Software architecture • Problem solving • Communication • Teamwork • Strong interest in AI
Languages: Arabic (native, C2) • French (upper-intermediate, B2) • English (fluent, C1)
